Letter of congratulation

ST-Auto of Moscow, Russian Federation, is one of the biggest companies of manufacturing and assembling fire vehicle, has the honor to congratulate Mr. Robert Ndege Mangazeni, from the United Republic of Tanzania, who in the year of 2012 together with our engineers came to form a modified fire vehicle by combining roof monitor with ground monitor, which he explained to be more efficient during firefighting process especially to the organization or country with the limited numbers of firefighting vehicles.

Therefore, the company has decided to award the above-named gentlemen with a Certificate of Honor for this fruitful idea.

The company promises to continue to work with Mr. Robert Ndege Mangazeni so as to further develop the company.

With best regards,

Director General
ST-Auto
Moscow
Russian Federation
